

01. Water Based: ELASTIC/ RUBBER SERIES

A ELASTIC/RUBBER SERIES (TABLE PRINT/ MANUAL)		
1	Elasplus White 2017	No hand tack, super soft hand feel and excellent elasticity.
2	Elasplus Clear 2017	. No hand tack, super soft hand feel and excellent elasticity.
3	Elasplus Opaque 2017	No hand tack, super soft hand feel and excellent elasticity.
4	Cosmic White	Super soft hand and elastic film especially for white knitted fabrics. Matt surface.
5	Cosmic Clear	Super soft hand and elastic film especially for white knitted fabrics. Matt surface.
6	Hydrosol Clear	Specially formulated to give print a similar properties of a conventional plastisol print. Super soft finish with excellent color fastness and durability.
7	Hydrosol White	Specially formulated to give print a similar properties of a conventional plastisol print. Super soft finish with excellent color fastness and durability.
8	Mori Clear 202	Super soft hand and elastic film especially for white woven fabrics. Glossy surface.
9	Mori White 202	Super soft hand and elastic film especially for dyed knitted fabrics. Glossy surface.
10	Polexprint 120	Super soft hand and elastic film especially for white knitted fabrics to achieve high quality textile printing. Matt surface.
1	Proprint Clear	
12	Proprint White	
13	Softmatt Clear TB	Ready made clear base for strong and bright shades. Suitable for manual printing.
14	Softmatt White TB	Ready to print opaque white paste. Suitable for manual printing.
15	Solarplus Base	Super soft hand and elastic film especially for white knitted fabrics to achieve high quality textile printing.
16	Solarplus Opaque	Super soft hand and elastic film especially for white knitted fabrics to achieve high quality textile printing.
17	Solarplus White	Super soft hand and elastic film especially for white knitted fabrics to achieve high quality textile printing.
18	Elasplus Clear	
19	Elasplus White	
(GARMENT MACHINE PRINT)		

20	Softmatt Clear MC	High solids PVC free for process or tonal artwork. Ready made clear base for strong, bright shades. Suitable for machine printing.
21	Softmatt White MC	High solids PVC free for process or tonal artwork. Ready to print opaque white paste. Suitable for machine printing.
22	Softflex Clear MC	
23	Softflex White MC	
(FARRIC ROLL MACHINE PRINT)		
24	Elasplus DVN/3	
25	Maxi Clear	
26	Maxi White	

Reducer Series

NO	ITEMS	DESCRIPTION
1	Plusprint ND5	Fully aqueous, ready to use printing base designed for application on light or white colored backgrounds.
2	Plusprint NDMC	
3	Reducer 013NU	
4	Reducer 3040NU	
5	Reducer BB	
6	Reducer CPNU	

Discharge Series

NO	ITEMS	DESCRIPTION
1	Discharge 2200	
2	Discharge Powder ZF	Discharge Agent
3	Plusbrill MCC	Imitation discharge to achieve discharge soft hand-feel and excellent wash fastness.
4	Plusbrill MCC White	Imitation discharge to achieve discharge soft hand-feel and excellent wash fastness.
5	Plusbrill TBV	Imitation discharge to achieve discharge soft hand-feel and excellent wash fastness.

Special Effects

NO	ITEMS	DESCRIPTION
1	Burn Out Base	For classic burn-out/ devore effects on natural or synthetic blends and silk or cellulose blends.
2	Discharge Base 2200	For discharge printing on cellulosic fibers.
3	Discharge White 2300	
4	Emboss 484	Designed for three dimensional or puff prints.
5	Emboss 494	Designed for three dimensional or puff prints.
6	EP White	
7	Glitter Binder 069	Metallic and glitter.
8	Magic Paste	
9	Plusgloss G-Top	
10	Pluspearl RP175	
11	Plustrans ADH	
12	Plustrans HTF	
13	Plustrans LTF	Transfer of metal foils and transfer of flock.
14	Showacol 9000	Metallic and glitter effects. Suitable for use on wide range of fabric types.
15	Showacol RA4	Metallic and glitter effects. Suitable for use on wide range of fabric types.
16	Suede Foam CP	
17	White Paste 2001	High opacity matte white printing paste suitable for printing on cotton, polyester and blends of woven fabrics.
18	White Paste 750	High opacity matte white printing paste suitable for printing on cotton, polyester and blends of woven fabrics.

Additives

NO	ITEMS	DESCRIPTION
1	Ecoprint Fixer LCF	Low formaldehyde melamine hydrosoluble resin with very high cross-linking characteristic.
2	Emulsifier M Conc	
3	Emulsifier PF061	Emulsifying agent for low solvent based and solvent free pigment paste.
4	Emulsifier SW	Emulsifying agent for low solvent based and solvent free pigment paste.
5	Fixer TL	Fixing Agent
6	Humectant 235	
7	Lamrock RM	
8	Plusfix HK35	Highly concentrated catalyst used to reduce the time or temperature required to fully cure.
9	Plusoft 36	Provide a very soft and slippery touch to prints.
10	Puffing Powder 3007	
11	Softener 36	Improves the handle of the finished print and dry rub fastness.
12	Softener WD	Highly concentrated silicone based softener giving a very soft and slippery handle to the printed material.
13	Thickener PAN 60	
14	Thickener PT/C	
15	Thickener TA	Auxillary thickener for pigment printing pastes.
16	Viscoplus 150C	High viscosity synthetic thickener in liquid form.
17	Wetting Agent 500	Anionic surfactant.
18	White Pigment CP	Used in the combination of Binder, Emulsifier and auxillaries to achieve an opaque white print or tinted color print with high opacity.
PRINTING BINDERS SERIES		
19	Binder 909NU	Viscosity 50 – 300
20	Binder 945	Viscosity <1500
21	Binder SS	Viscosity <1500
22	Binder SSNF	Viscosity 400 – 800

Water Based Pigment Colors

NO	ITEMS	DESCRIPTION
	NORMAL PIGMENT	
1	Yellow FL2G	
2	Gold Yellow FG3R	
3	Orange GR	
4	Red FGN	
5	Red FGR	
6	Rose FBL	
7	Violet F3BC	
8	Green FBH	
9	Sky Blue H	
10	Blue FFG	
11	Navy Blue FR	
12	Black FBB	
	FLUORESCENT PIGMENT	
13	Luminous Yellow NL-F5P	
14	Luminous Orange NL-FG	
15	Luminous Pink NL-FR	
16	Luminous Red NL-FN	
17	Luminous Green NL-FH	

Miscellaneous

NO	ITEMS	DESCRIPTION
1	Haze Remover	
2	SD 200	
3	Stencil Remover Powder	
4	Adhesive CP 103	
5	CPI-HCP Photo Emulsion	
6	Photo Emulsion 520	
7	ADHESIVE/ GLUE	
8	Table Glue PP2013	
9	Belt Glue SP2616	
10	Frame Adhesive
